## Transforming Organisational Learning for the Social and Digital Age – By Bala Murali

We are already in the 4th industrial revolution and the way we live, work and play is changing day by day with the introduction of and use of Digital technologies in everything. Terms like Artificial Intelligence, Machine Learning, Big Data, Augmented Reality, Cloud Computing, Social Collaboration, Digital Transformation are now the norm.

In this talk we will have an appreciation for how a learning organisation of the New World look like, how people learn in this age, the role and blueprint of Learning Organisations and how organisations need to transform and curate their learning culture, strategy, role and build an ecosystem that enable learning and engagement in the Social and Digital Age.

As industries and markets come to terms in leading and managing in a Digital Age, there is now a growing sense of urgency for organisations to address the people aspect which is critical to its success, addressing on how to identify, equip, lead and manage the workforce of the future.

With HR trusted as the strategic partner in driving the human capital development of the future, one of the key challenges being faced is the way learning happens and is engaged in an organisation, with the workforce being more socially connected and taking ownership of cocreating the learning experience. Thus requiring a shift towards a more democratised, social, collaborative, real time learning enabled by digitalisation.

Time : Lunch from 12:30pm.  
**Event starts at 2pm to 4pm.**  
Venue: **1 Raffles Boulevard, Level 3, Room 328, Singapore 039593**  
Cost : Complimentary  
(Seats limited per organisation).

**Reservation** by email with subject header: **ELITC Event 2019 Digital Age** by **21 June 2019 (Friday)** at [emarketing@elitc.com](mailto:emarketing@elitc.com). Includes with your name, company, department, contact details and email address.

## Industry - based Training Certification Open for Registration

Looking for Electronics and Electrical Specialised Certificates? We have the following programmes in ELITC that cater to your field of needs. Registration is now open till **31 May 2019** for **July 2019** Intakes.

**Pearson BTEC Level 5 Higher National Diploma in Engineering (Electrical and Electronic Engineering) - RQF**  
(Total duration to complete: 960 hours / min 2 years)

**Pearson BTEC Level 4 Higher National Certificate in Engineering (Electrical and Electronic Engineering) - RQF**  
(Total duration to complete: 480 hours / min 1 year)

**Nitec in Technology - Electronics, Computer Networking & Communications\*\***  
(Total duration to complete: 600 hours / min 1.5 years)

\*\*For Nitec min requirements is "O" Level equivalent qualification. If do not meet min requirements, will need to go Ang Mo Kio ITE Central to take an Entrance Test of English and Mathematics.

## IT Programmes for Young and Old

Figuring by yourself how to use computer software?

Wondering which formulas to use for Excel Spreadsheets?

**Fret not.**

ELITC have the expertise and following IT programmes that suits to individual needs for office skills.

Module	Core / Advanced	Total Hours	*Course Dates
MS Word 2013	Core	17	10 – 11 June 2019
MS Word 2013	Advanced	24	17 – 19 June 2019
MS Excel 2013	Core	17	17 - 18 June 2019
MS Excel 2013	Advanced	24	24 – 26 June 2019
MS Powerpoint 2013	Core	17	20 – 21 June 2019
MS Powerpoint 2013	Advanced	24	26 – 28 June 2019

\*Schedules for above programmes are subjected to changes.

## WSQ Certified Associate Operations Executive (AOE)

Complete 4 modules in 14 days to achieve!

Manage Quality System and Processes (Blended)

Apply Project Management Skills (Blended)

Manage Process Improvement (Blended)

Apply Management Level Planning Skills (Blended)

## WSQ Modules under Assembly & Test (A & T) Framework

Complete 5 modules in 11 days to achieve!

Manage Problems and Make Decisions in a Technical Environment (Blended)

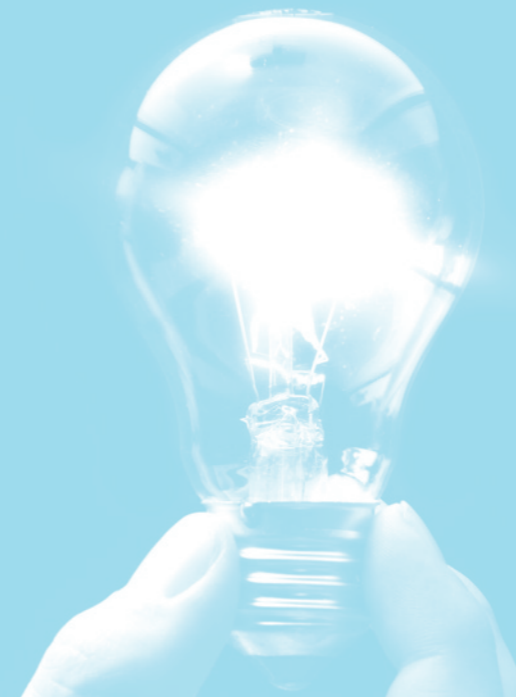

Apply Basic DMAIC Problem Solving Techniques (Blended)

Manage Failure Mode and Effect Analysis (Blended)

Manage Statistical Processes and Data Analysis in a Technical Environment (Blended)

Apply "8 Disciplines" Problem Solving Approach (Blended)
